

The Coronavirus pandemic has led us to re-imagine Health System 100, and strengthen the value of this special leadership community.

After a series of successful COVID-19 Task Force calls, we are launching four new virtual elements in addition to the annual Health System 100 Conference that will deepen our ability to deliver **exceptional healthcare intelligence** and a vibrant leadership community.

We are launching these elements on a rolling start by October 1, 2020.

2020 Members will receive these benefits **100% free of charge** for the rest of the year. We will start charging members on January 1, 2021, and will call to confirm your paid participation in November/December. Members will be limited to 100 leading providers and 100 leading solution partners.

## Four Elements

### ① Monthly Think Tank

A 60-minute, professionally-moderated live conference call featuring original research and top experts on the **changing future of health systems**, with a special focus on external drivers: consumers, payers, disruptors, physicians, and policy-makers.

After each call, you'll hold two 8-minute meetings with leading solution partners (we try to optimize reciprocal choice).

### ② Weekly Intelligence Feed

An e-newsletter delivering fresh insights in strategy, innovation, leadership and policy. Each issue will also include a provider case study and analyses of innovative solution partners.

### ③ Community Interviews and Introductions

Each provider organization will be periodically interviewed for either content or connections. Content – to help inform the monthly Think Tanks or the Intelligence Feed. Connections – to enable us to connect you to providers or solution partners who may be a great fit for a current initiative you are working on.

### ④ Online Forum

An easy-to-use community directory, with a profile on each member; a content library of Think Tank recordings and Intelligence Feeds; and an active forum to share best practices.
